QGIS Application - Feature request #5138
A window should display a message about D&D feature

Description

I think that would be good to have a reference about the drag and drop feature; something like an info window (with a "Don't show anymore checkbox") when starting the plugin.

- Status changed from Open to Feedback

Hello, bug triage...

for the moment, there is no popup window on DBManager and I think this is good because DBManager is just an internal tool of QGIS and we already have the startup tips window (that can be disabled).

To make some progress in this feature request, we have at least two options:

- make a startup tip that talks about the drag'n drop feature of DBManager.

- update the training lesson about DBManager in the QGIS documentation to mention it.

Do you consider them as good answers to your needs ?
