

QGIS Application - Bug report #5156

Measure tool lines should be erased when switching to another measure tool

2012-03-10 09:55 PM - Alister Hood

Status:	Closed	
Priority:	Low	
Assignee:	Magnus Homann	
Category:	Digitising	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 14908
Description		
<p>When you switch to another tool after using a measure tool, the grey lines that showed what you measured are erased from the canvas. When you switch to <i>another measure tool</i> after using a measure tool, the grey lines are not erased. They even stay there when you switch to another tool after using the second measure tool.</p>
