

QGIS Application - Bug report #5158

QGIS 1.7.4 with fTools : polygon centroids errors

2012-03-11 08:49 AM - Merenguey Merenguey

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Processing/QGIS	
Affected QGIS version:	1.7.4	Regression?:
Operating System:	Ubuntu GNU/Linux	Easy fix?:
Pull Request or Patch applied:	No	Resolution: worksforme
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 14910
Description		
<p>Hi,</p> <p>I have upgrade QGIS from 1.7.3 to 1.7.4.</p> <p>I was working on a project and I had to use the "polygon centroids" function from fTools.</p> <p>When I do it, the process is right. But when it is proposed to load the TOC, an error message appears "Error loading output shapefile".</p> <p>Then if I try to "add a vector field", I can see than the "polygon centroids" function didn't work because I only have 3 files : <i>.qpg</i> <i>.shp</i> <i>.shx</i> but no <i>.dbf</i>. Thereby, if I try to load the vector, they tell me that "is not a valid or recognized data source".</p>

The "ftools" category is being removed from the tracker, changing the category of this ticket to "Processing/QGIS" to not leave the category orphaned.
