I found what has caused this. Tim made a commit that added layersAdded and layersRemoved to the MapLayerRegistry which are the new signals.

Working on a fix now.

Is this also related to that commit?

Warning: Object::connect: No such signal QgsMapLayerRegistry::layersAdded( QgsMapLayer \* )

Warning: Object::connect: (receiver name: 'MainWindow')

Warning: Object::connect: No such slot QgsApp::removingLayer( QString )

Warning: Object::connect: (receiver name: 'MainWindow')

I get that when I start QGIS!
