

QGIS Application - Feature request #5559
add tooltip on fields in identify window / attribute window / feature form

2012-05-09 05:58 AM - Regis Haubourg

Status:	Open	
Priority:	Low	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:		Resolution:
Easy fix?:	No	Copied to github as #: 15144

Description

Many times, fields name are short and not explicit enough to understand their meaning.
Comments are already available in fields properties and are perfect for that. Thoses comments are really nicely integrated when using Postgis.

I would love to have tooltips displaying comments, real name if alias is used and maybe field type and precision. see attached pictures for examples
Anyone interested in it?

History

- #1 - 2012-05-09 06:03 AM - Regis Haubourg
- File qgis_field_comment_tooltip.jpg added
- Here is the picture
- #2 - 2012-10-06 02:25 AM - Pirmin Kalberer
- Target version changed from Version 2.0.0 to Future Release - Nice to have
- #3 - 2017-05-01 12:48 AM - Giovanni Manghi
- Easy fix? set to No
