QGIS Application - Feature request #5587
v.in.ogr.qgis should allow us to ignore details

2012-05-13 08:04 PM - Aren Cambre

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	GRASS			
Pull Request or Patch supplied:	No		**Resolution:**	fixed/implemented
Easy fix?:	No		**Copied to github as #:**	15164

Description

Per #4620, there's a GRASS bug that is totally preventing me from importing certain data into GRASS. However, it appears that per http://grass.fbk.eu/gdp/html_grass64/v.in.ogr.html, it is possible not to create an attribute table with the **-t** option on v.in.ogr.

Please support this switch in v.in.ogr.qgis.

History

This is very easy to fix (patches welcome), but will probably be not, as our efforts are mainly devoted to the new sextante method of using grass

#2 - 2012-05-21 06:38 PM - Aren Cambre

Thanks. From the best I can tell, this is not yet available in 1.7.4? Or if it is, it's not available in a repository, even marked as experimental.

#3 - 2012-09-04 11:53 AM - Paolo Cavallini

- *Target version changed from Version 1.8.0 to Version 2.0.0*

#4 - 2012-10-06 02:19 AM - Pirmin Kalberer

- *Target version changed from Version 2.0.0 to Future Release - Nice to have*

#5 - 2015-12-09 05:00 AM - Médéric RIBREUX

- *Resolution set to fixed/implemented*
- *Status changed from Open to Closed*
- *OS version deleted (1.7.4)*
- *Operating System deleted (Windows 7 x64)*
- *% Done changed from 0 to 100*

Hello, bug triage...

in QGIS 2.13 master (and probably in earlier versions), there is a -t parameter on v.in.ogr.qgis. You just have to check "Do not create attribute table" in the advanced options of the module...

I am closing this feature request.
