#### History

##### #1 - 2012-10-06 02:19 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

##### #2 - 2012-11-14 01:07 AM - Regis Haubourg

Recent feature request #6685, #6686, #6685 made me think that when qgs will be supported in browser, some right clic options would be usefull:

- 1- open projet (quit existing one)
- 2- append to project
- 3- add layers and groups from project (open actual dialog from layer menu)

Does it need a separate ticket?

##### #3 - 2015-12-10 09:18 PM - Nathan Woodrow

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Added to master now. commit:ffd7c9436fb2888b8e5ada52968d231f49173876
