Description

The new nigthly builds for the ubuntugis ppa depends on libgdal 1.7.0

> *apt-rdepends qgis | grep libgdal*
> *Reading package lists... Done*
> *Building dependency tree Reading state information... Done*
> *Depends: libgdal1-1.7.0*

Should not qgis depend on the version 1.9 (libgdal1 (1.9.0-2~precise1))?

see bug #5564 (#5564)

History

#1 - 2012-05-16 09:34 AM - Jürgen Fischer

Already noticed. Hopefully fixed in commit:0bac04db. Let's wait for the next round of nightly builds.

#2 - 2012-05-25 12:40 AM - Jürgen Fischer

- Resolution set to fixed

- Status changed from Open to Closed
