QGIS Application - Feature request #566
Load multiple GRASS maps into QGIS

2007-02-02 02:39 AM - neteler-itc-it -

Status:	Closed		
Priority:	Low		
Assignee:	Lorenzo Masini		
Category:	GRASS		
Pull Request or Patch supplied:		**Resolution:**	fixed
Easy fix?:	No	**Copied to github as #:**	10625

Description

Hi,

when loading e.g. SHAPE files, I can select multiple maps and they will be imported in one step. It would be very useful to have the same possibility for GRASS maps.
Maybe it already works to enable multiple selections?

Thanks,
Markus

#4 - 2009-08-03 06:17 PM - nikos -

Hi!

I use qgis 1.2.0 unstable and can't load multiple grass-rasters. Is this meant to work *only* from within the grass-toolbox?

Thanks, Nikos

yes, this fix is about the grass toolbox. I guess that enabling multiple selection of grass layers outside the toolbox would require opening a new enhancement ticket.

Thanks for the confirmation. Having this option outside the grass-toolbox is extra work, which might be not necessary. It works fine as it is. It may be better to keep it like that.

Cheers, Nikos
