

QGIS Application - Bug report #5872

marker symbol previews incorrectly rendered - should be scaled down instead of clipped when larger than preview size

2012-06-26 05:34 AM - Etienne Tournigny

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Symbology	
Affected QGIS version:	master	Regression?: No
Operating System:	Linux	Easy fix?: No
Pull Request or Patch supplied:		Resolution: end of life
Crashes QGIS or corrupts data:		Copied to github as #: 15333
Description		
When using the symbology widgets for editing/creating markers and selecting large sizes (usually larger than 5), the preview icons are clipped instead of being scaled down, and if large enough the symbol preview is a square instead of the desired shape. Attaching a few images illustrating the problem. This happens in 1.8 and 2.0-dev		

History

#1 - 2014-06-28 07:42 AM - Jürgen Fischer

- Target version changed from Version 2.0.0 to Future Release - Lower Priority

#2 - 2017-05-01 01:09 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#3 - 2019-03-09 04:04 PM - Giovanni Manghi

- Resolution set to end of life

- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
