

QGIS Application - Bug report #5961

previewMode="Cache" doesn't work in Qgis 1.8

2012-07-06 04:30 AM - Seb Radzimski

Status:	Closed	
Priority:	Severe/Regression	
Assignee:		
Category:		
Affected QGIS version:	1.8.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 15381
Description		
<p>Using print template made earlier in Qgis, value previewMode seems to not work properly when is set on Cache.</p> <p>In print composer, map window is always set on Rectangle even I set previewMode="Cache" in .qpt file and instead of map preview there is information "Map will be printed here" which is right for Rectangle value.</p>

It used to work as expected in 1.7.4?

#2 - 2012-07-09 12:00 AM - Seb Radzimski

Yes. In Qgis 1.7.4 it works properly.

P.S. I use OSGeo4W to install Qgis.

Regards

- Operating System deleted (ms windows)

- Status changed from Feedback to Open

- Priority changed from Normal to Severe/Regression

- OS version deleted (xp, vista, 7)

Confirmed, as it is a regression I'll tag this as blocker. If this change was introduced on purpose then the developer will close the ticket or downgrade the priority.
