

QGIS Application - Feature request #6079

Add Left & Right to field calculator

2012-07-21 11:31 PM - aperi2007 -

Status:	Closed	Resolution: Copied to github as #: 15433
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>Hi,</p> <p>I guess the field calculator are two useful function that actually miss from field-calculator.</p> <p>I know there is substring, but not always it is useful.</p> <p>An use case:</p> <p>To populate a new field using the last part of a string from another field of the same shapèefile, the right function is the best solution. (I guess the the only solution).</p> <p>The substring work only if the first part of the string is always the same otherwise it is not usable.</p>
