

QGIS Application - Bug report #6101

User not warned of uncommitted edits when closing

2012-07-26 01:43 PM - Chris Crook

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Project Loading/Saving	
Affected QGIS version:	master	Regression?: No
Operating System:	Ubuntu	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 15446
Description Steps to reproduce: 1) Open a new project 2) Add an editable layer (I've tried memory and shapefile). 3) Save the project 4) Make the layer editable, add some features (Do not save edits or end editing the layer) 5) Close QGIS (saving the project if prompted) - Note: no prompt to save uncommitted edits 6) Reopen the project. Added features have disappeared. I've confirmed this using QGis 1.8.0a on Ubuntu 11.10 QGis 1.8.0RC1 on Windows XP

isn't this a duplicate of #6054 ?

#2 - 2012-07-26 03:13 PM - Chris Crook

Indeed it is ... I tried searching for a matching issue, but missed it :-(

no problem.

Closing as duplicate.
