

QGIS Application - Bug report #6129

QGIS 1.8.0 crashes when trying to open older File

2012-07-31 07:33 AM - paull -

Status:	Closed	
Priority:	High	
Assignee:		
Category:		
Affected QGIS version:	1.8.0	Regression?: No
Operating System:	Win 7 64	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 15464
Description When opening an older file in QGIS 1.73, it properly starts (by displaying a dialogue with missing raster- and shape-layers). When opening the same file in QGIS 1.8.0, QGIS immediately crashes. Maybe a problem with missing layers? System: Windows 7 64 bit
