

QGIS Application - Bug report #614
cannot open GRASS shell

2007-02-24 10:40 PM - hartmut-tschauner-gmail-com -

Status:	Closed	
Priority:	Low	
Assignee:	Tim Sutton	
Category:	GRASS	
Affected QGIS version:		Regression?: No
Operating System: Windows		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 10673
Description		
The GRASS shell will not open on Windows x64. Clicking on the GRASS shell command in the GRASS toolbox has no effect whatsoever.		

History

Does the problem persist with QGIS 0.9.0? The included GRASS has undergone significant improvements for 64bit support and for native Windows support.

- Resolution set to fixed
- Status changed from Open to Closed

Probably invalid with newer versions. Please reopen it if appropriate.
