

QGIS Application - Bug report #6153

Exporting a graduated style in SLD loses the filters

2012-08-04 08:56 AM - Andrea Aime

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Symbology	
Affected QGIS version:	1.8.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 15477
Description		
<p>Exporting a graduated style with 5 classes for a polygon layer results in a SLD with 5 rules, but none of them having a filter, which makes an SLD renderer end up painting all polygons of the same color.</p> <p>Tested this behavior on both Ubuntu 10.04 and Windows XP with QGIS 1.8</p> <p>I'm attaching both the qml for the style and the exported SLD</p>		

History

#1 - 2012-08-04 09:16 AM - Andrea Aime

Tested with trunk, it works fine there

#2 - 2012-08-05 05:12 AM - Giovanni Manghi

- Resolution set to invalid
- Status changed from Open to Closed
