

QGIS Application - Feature request #6169

Add "Edit feature form" action to "Run feature action" tool

2012-08-08 03:36 AM - Giovanni Manghi

Pull Request or Patch supplied:	No	Resolution: wontfix
Easy fix?:	No	Copied to github as #: 15487
Description Since qgis 1.8 there is the new "Run feature action" tool, but this is empty by default. There is always an action available by default in any vector layer added to QGIS, the "Edit feature form" action (available via the identify dialog). It makes sense to add this default action to the "Run feature action" tool, in a way to allow open the "edit feature form" dialog with just one/two clicks.
