

QGIS Application - Bug report #6199

Tracker bugs

2012-08-15 07:12 AM - Jonathan Moules

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 15513
Description		
<p>Two bugs with this web-tracker:</p> <p>(a) If I change "tracker" from "Bug" to "Feature", most of the bug stuff disappears. But if I change it back to "Bug" it doesn't come back.</p> <p>(b) If I submit a "Feature" and click "create and continue", the new Feature has all of the details for "Bug" despite saying "Feature".</p> <p>Using Opera 12.00</p>		

History

#1 - 2012-08-15 09:35 PM - Alister Hood

Yes, there are a lot of issues with the tracker configuration. But they should be filed under <https://issues.qgis.org/projects/qgis-redmine>, not in the main tracker which is for "Quantum GIS Desktop".

I guess this isn't at all obvious depending on how you got to the page for submitting the bug...

#2 - 2012-08-16 01:30 AM - Giovanni Manghi

- Resolution set to invalid

- Status changed from Open to Closed

Don't know why I can't move this ticket to the right project (I guess another issue). Please file it again in the right place

<https://issues.qgis.org/projects/qgis-redmine>
