<b>Description</b>		
<p>Hello,</p> <p>The behavior of the Delete button on the Categorized Style dialog is not complete. It doesn't delete the selection but only the last selected class. As a consequence, it is particularly boring to delete lots of classes, one by one and this behavior is far from natural.</p> <p>You can see an example with the added png files: only the last selected class (PHAE.NOR) is deleted when you clic on the delete button.</p>
