

QGIS Application - Bug report #6209

Some "SVG fill" dialog issues

2012-08-16 06:17 AM - Jonathan Moules

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: end of life
Crashes QGIS or corrupts data:	No	Copied to github as #: 15522
Description		
Issues with the SVG fill dialog:		
(a) If I select an invalid file (i.e., not a useable SVG) it doesn't complain or offer any sort of warning or error.		
(b) The "files of type" doesn't include "*.SVG" but probably should as the default file type.		
(c) The text at the top of the navigation dialog says "Select svg texture file" - SVG should be upper-case.		
(d) The white box and the "..." next to it isn't that clear that you can use it to select a SVG file. Maybe "Load SVG" button.		

Associated revisions

Revision 03e10eaa - 2014-05-04 01:57 PM - Nyall Dawson

Add SVG file filter to SVG fill pattern browse dialog (refs #6209)

History

#1 - 2012-08-16 10:08 AM - Giovanni Manghi
