QGIS Application - Bug report #6212
Incorrect sorting of uppercase and accented words in the "Style -> Categorized" dialog

2012-08-16 06:47 AM - Jonathan Moules

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	GUI			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	15525	

Description

In Styling -> Categorized
I have labels such as:

alpha
Beta
charlie
Delta

If I set it to sort, I would expect it to sort in that order ascending. However QGIS seems to be case sensitive when sorting, so I get:
alpha
charlie
Beta
Delta

Aren't sorts normally case insensitive? That's certainly what I'd expect as a regular user.

History

#1 - 2012-08-16 10:17 AM - Giovanni Manghi

- *Target version set to Version 2.0.0*

- *Subject changed from Case sensitive sort to Incorrect sorting of uppercase and accented words in the "Style -> Categorized" dialog*

- *Category set to GUI*

I can cofirm this issue also with words that do begin with accented letters like "É", "Á", etc.

#2 - 2014-01-25 02:59 AM - Martin Dobias

- *File categorized-sorting.png added*

Actually I cannot confirm in master - for me the sorting is case insensitive and respects accented characters (see attached screenshot). Or do you have a different dialog in your mind?

#3 - 2014-01-25 09:00 AM - Giovanni Manghi

- *Status changed from Open to Closed*

- *Resolution set to fixed/implemented*

Reopen if necessary.

#4 - 2014-01-27 04:41 AM - Jonathan Moules

Confirmed as fixed.
