- Pull Request or Patch supplied set to No

a) can't you see a trashcan icon beside the file name?

b) it is possible, ex: <https://issues.qgis.org/wiki/geotagphotos/Wiki>

this is the way (ex:)

!https://issues.qgis.org/attachments/4698/48.png!

#2 - 2012-08-17 08:20 AM - Jonathan Moules

Nope, no trashcan, only a paperclip which seems to download the file. I guess this is a permissions thing.

Done the image though. Thanks!

then is no bug, or not?

#4 - 2012-08-17 08:24 AM - Jonathan Moules

I don't know. I reported this as "support", but if there's supposed to be a trashcan I guess that'd mean its a bug.  
You're welcome to delete the specified file yourself given I can't. Thanks.

I will try to play around with configuration and see if is really a permission issue.
