

## QGIS Application - Bug report #625

### Unknown svn revision in win32 preview2

2007-03-01 10:19 AM - Magnus Homann

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>	Tim Sutton	
<b>Category:</b>	Build/Install	
<b>Affected QGIS version:</b>		<b>Regression?:</b> No
<b>Operating System:</b>	Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>		<b>Copied to github as #:</b> 10684
<b>Description</b>		
<p>The svn revision doesn't work in win32 preview 2. I suspect there is an old qgssvnversion.h in the source directory that's picked up before the one in build directory where the binary is build. It works for me otherwise.</p>		

#### History

##### #1 - 2007-03-09 10:44 AM - Magnus Homann

Solution is that one have to have svn command line inertaface tools installed for this to work, specifically 'svnversion'.

##### #2 - 2007-03-25 12:36 AM - Redmine Admin

has this been solved with preview3? should it be closed?

##### #3 - 2007-03-25 01:15 AM - Magnus Homann

No, still not build with svn cmd line tools installed on the build machine.

##### #4 - 2007-06-11 05:35 PM - Tim Sutton

- *Resolution set to fixed*

- *Status changed from Open to Closed*

Im building with svn cli tools now. Svn version is showing up correctly now. Closing this bug - thanks!

Tim
