| Crashes QGIS or corrupts data: | | Copied to github as #: 15572 |
| Description | | |
| <p>it seems that height of legend box in print composer are setted by deafult as the best for fit text and symbols.</p> <p>when i change some elements, as text for example, the dimensions come back to originals.</p> <p>this situation comes also when the layout is re-open and legend box is blocked</p> <p>this bug affects just only the height of legend box and no other kind of boxes.</p> <p>both 1.8 and master 1.9.52 under win7 32bit</p> | | |

History
