

QGIS Application - Bug report #6292

OSGeo4W installer - missing dlls

2012-08-31 08:45 AM - Andre Joost

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 15590
Description		
<p>After installing qgis-dev via Osgeo4w-Installer, the qgis-dev.bat does not start the program. The following dlls are missing: qwt5.dll spatialindex1.dll sqlite3.dll (older version in bin folder present, but will not work). When I copy them manually from my standalone Installation of Qgis 1.8.0 (under C:\\Programs (x86)\\...), the program starts. I don't know where the installer has put the dlls, or if he did at all.</p> <p>qgis-dev.bat contains:</p> <pre>@echo off SET OSGEO4W_ROOT=C:\\OSGeo4W call "%OSGEO4W_ROOT%"\\bin\\o4w_env.bat call "%OSGEO4W_ROOT%"\\apps\\grass\\grass-6.4.2\\etc\\env.bat @echo off path %PATH%;%OSGEO4W_ROOT%\\apps\\qgis-dev\\bin;%OSGEO4W_ROOT%\\apps\\grass\\grass-6.4.2\\lib set QGIS_PREFIX_PATH=%OSGEO4W_ROOT%\\=\\%/apps/qgis-dev start "Quantum GIS" /B "%OSGEO4W_ROOT%"\\bin\\qgis-dev.exe %*</pre>
