

QGIS Application - Bug report #6390

Size of bar on canvas: weird behaviour

2012-09-21 10:14 AM - Paolo Cavallini

Status:	Open	
Priority:	Low	
Assignee:		
Category:	GUI	
Affected QGIS version:	3.6.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 15647
Description The View>Decorations>Scale bar>Size of bar has a strange behaviour. It allows you to change the length of the scale bar, but it is strangely limited to two digits and will get reset if the value is not judged in the good range. Try to input a value like 40 and zoom until 40m would be considered an acceptable value. There will be a few level of zoom where the bar is set to 40m. Once you zoom in or zoom out too far, it will get calculated as usual.

Yes, I also noticed it doesn't work. But I'm unsure how it **should** work, so I haven't fixed it. :-) Ideas?

#2 - 2012-09-24 03:00 AM - Paolo Cavallini

I'm also unsure about the intended behaviour of the option. Perhaps if specified the bar should always be of the selected length (in map units or in mm)?

#3 - 2014-06-23 08:11 AM - Paolo Cavallini

Still true on current master.

#4 - 2014-06-23 08:13 AM - Paolo Cavallini

- Subject changed from Size of bar to Size of bar on canvas: weird behaviour

#5 - 2017-05-01 01:09 AM - Giovanni Manghi

- Easy fix? set to No

- Regression? set to No

#6 - 2018-02-23 07:25 PM - Paolo Cavallini

- Description updated

Still true in QGIS 3

#7 - 2019-03-09 04:04 PM - Giovanni Manghi

- Resolution set to end of life

- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR

#8 - 2019-03-09 04:14 PM - Paolo Cavallini

- *Affected QGIS version changed from master to 3.6.0*
- *Resolution deleted (end of life)*

As noted above, still true in 3.0, so **not end of life**. Please revert changes.

"master" was used as possible affected version for some period for both the 2.* and 3.* branch.

The triage is being done using the ticket creation date, we are closing anything that has been filed against "master" before the July 7 2016, the day the branch that lead to QGIS has been created.

This will likely close some ticket that should not be closed, but is for the sake of the cleanup.
