

QGIS Application - Bug report #6405

Show feature count not working with rule-based label definitions

2012-09-24 07:11 PM - Mathieu Pellerin - nIRV

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 15658
Description		
<p>Not sure when this regressed. With latest nightly build, QGIS fails to provide count numbers to layer's labels defined with rule-based definitions. See attached screenshot.</p> <p>I've also included in this issue the tiny project + shapefile as test case.</p>

is this a regression from 1.8? or it used to work in master and then stopped?

#2 - 2012-09-25 04:29 AM - Regis Haubourg

Hi all,

I've never seen this working. see: #5768, #5960, #3402 , #6237..

Theses features are currently being sponsored, you should here news of it very soon here.

Ah, so I couldn't remember when it regressed because it never did regress :o)

Regis, glad to hear this feature is being worked on. What do you want me to do with this bug? Close it as duplicate of another issue (if so, which one), or leave it open as requested feature?

It's a duplicate .. maybe better to close it to help dev's reduce noise in this bugtracker. Giovanni, opinion?

#5 - 2012-09-25 05:31 PM - Mathieu Pellerin - nIRV

- Resolution set to duplicate

- Status changed from Feedback to Closed

(Closed as duplicate of issue #5768)
