

QGIS Application - Feature request #6424

Show count in Identify Results dialog

2012-09-27 02:41 PM - Aren Cambre

Status:	Open	Resolution: Copied to github as #: 15670
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
When I use the Identify Features feature, the Identify Results dialog should show a count of items found. Occasionally, especially with some of my bad datasets, Identify Features turns up more items than I can count at a glance.
