Works for me with current developer version (export a map with 3 layers). Do you have a nightly build at hand to test it with the current developer version?

#2 - 2012-10-15 02:31 AM - Marco -

Whit "nightly build" do you mean a pc that can works on night??

#3 - 2012-10-15 02:38 AM - Nathan Woodrow

When we say nightly build we mean the nightly development build. If you are on Windows you can [OSGeo4Winstaller](#) to grab the latest version of the qgis-dev package.
