Are you using the 0.8.0 installation?

#2 - 2007-03-25 01:19 AM - Magnus Homann

- Status changed from Open to In Progress

This works for me with 0.8.1 on pre3. Have you tested with

http://qgis.org/uploadfiles/testbuilds/qgis_setup0.8.1preview3.exe

Uninstall old version first!

Does this bug still occur for you in version 0.9?

#4 - 2007-11-23 04:12 PM - Steven Bell -

Also, are you using the print composer, or just exporting straight from the main window?

#5 - 2007-12-09 08:56 AM - Magnus Homann

- Status changed from In Progress to Closed

- Resolution set to fixed

I believe it os fixed. Re-open if needed.
