QGIS Application - Bug report #6511
Error when creating new Spatialite tables in DB Manager

2012-10-14 03:37 AM - Giovanni Manghi

Status:	Closed		
Priority:	High		
Assignee:	Giovanni Manghi		
Category:	DB Manager		
Affected QGIS version:master		**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	15728

Description

tested on qgis 1.8 on Windows.

When I try to create a new SL table I get

near "n": syntax error

message.

It results that when adding varchar fields it uses a "varchar (n)" field type.

If the "(n)" is removed then it works fine.

I didn't tested with PostGIS.

I agree that a new item varchar without limit should be added

The one with **N** as limit could be kept but replacing the **N** with a valid default value (e.g. 255) so the user can change it with a more appropriate value if needed.

#2 - 2012-11-28 09:37 AM - Giuseppe Sucameli

- Status changed from Open to Closed

Fixed in changeset commit:"a4484b217eda390f8c52592f2d57d1d1907e5694".

#3 - 2012-11-28 09:46 AM - Giuseppe Sucameli

- Resolution set to fixed
