

QGIS Application - Bug report #6512

SL Geometryless tables are not accessible from browser or "add SL layer", but they are in DB Manager

2012-10-14 03:48 AM - Giovanni Manghi

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Browser	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: end of life
Crashes QGIS or corrupts data:		Copied to github as #: 15729
Description		
<p>If I have a SL db with just geometryless tables I can access them with DB Manager, but the qgis browser says "failed to get tables".</p> <p>In a similar way the "add SL layers" fails to return a list of tables when there are only geometryless ones ("failure exploring tables from...")</p> <p>tested on 1.8 on Windows.</p>		

History

#1 - 2012-10-14 09:37 AM - Giovanni Manghi

geometryless SL tables are never available in qgis browser, even when tables with geometries are inside the db.

#2 - 2014-06-20 05:11 AM - Giovanni Manghi

- Target version changed from Version 2.0.0 to Version 2.4
- Category changed from Vectors to Browser

no error message anymore, but still no joy from browser and "Add SL layer" dialog.

#3 - 2014-06-28 07:45 AM - Jürgen Fischer

- Target version changed from Version 2.4 to Future Release - High Priority

#4 - 2017-05-01 01:09 AM - Giovanni Manghi

- Regression? set to No
- Easy fix? set to No

#5 - 2019-03-09 04:04 PM - Giovanni Manghi

- Resolution set to end of life
- Status changed from Open to Closed

End of life notice: QGIS 2.18 LTR
