QGIS Application - Bug report #6513

SL Geometryless tables are not accessible from browser or "add SL layer", but they are in DB Manager

Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**	duplicate	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	15730	

Description

If I have a SL db with just geomteryless tables I can access them with DB Manager, but the qgis browser says "failed to get tables".

In a similar way the "add SL layers" fails to return a list of tables when there are only geometryless ones ("failure exploring tables from...")

tested on 1.8 on Windows.
