

QGIS Application - Bug report #652

WMS Server Error when accessing MLI WMS Server

2007-03-12 02:52 PM - Bob-Bruce-gov-mb-ca -

Status:	Closed	
Priority:	Low	
Assignee:	Marco Hugentobler	
Category:	Web Services clients/WMS	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 10711
Description		
Today I downloaded and installed the 0.8 version of QGIS and tried testing it with our local WMS Server. As soon as I tried making the connection I got a message window with the errors shown in the attached JPG file. The WMS server is an Intergraph Geomedia Web Publisher system. Bob Bruce

The Qgis query format is in the old 1.1.0 version, apparently not supported by your WMS server. No immediate fix planned.

#2 - 2007-03-22 09:30 AM - Bob-Bruce-gov-mb-ca -

Do you have a date planned to have this fixed by?

- Resolution set to fixed

- Status changed from Open to Closed

The difference between WMS 1.1.0 and 1.1.1 are minor. Therefore I replaced 'VERSION=1.1.0' with 'VERSION=1.1.1' in both 0.8.1 and svn head. The access to the MLI server works now.

FROM m@i11.de

Hi,

as guest i'm not allowed to report a bug in your Trac at svn.qgis.org, but this might an important issue (and a

1/2

showstopper for me):

With update to version QGIS 0.81RC1 I can use my favorite german WMS server no longer (see also: <http://www.geoserver.nrw.de/>). Now the hard coded WMS Version number is 1.1.1 but this server still requires version 1.1.0

The error message is:

Konnte nicht zeichnen NRW TK 100 weil:
(Unknown error code from a post-1.3 WMS server)

The WMS vendor also reported:

Request nicht V1.1.0

This is probably due to a bug in the QGIS program.

Please report this error.

- Status changed from Feedback to Open

#6 - 2007-06-05 12:10 AM - Marco Hugentobler

The only solution I see here is to make a GUI element that lets the user select versions 1.1.0/1.1.1/1.3.0

#7 - 2007-06-05 01:08 AM - Marco Hugentobler

Or, maybe better, parse the capabilities output for version strings

#8 - 2007-06-05 10:35 AM - Marco Hugentobler

- Resolution set to fixed
- Status changed from Open to Closed

This is fixed now in head and 0.8.1 branch.
