<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 15748
<b>Description</b>	
<p>Sometimes is desirable to have ticks for coordinates in the frame of the map. The only way of having such ticks, as far as I know, is to draw the grid and select "Crosses" as style. But it has a major drawback because (of course :)) crosses are drawn in the canvas as well... in fact, I guess that what I see as a frame tick is a cross itself...</p> <p>So I ask for a way to draw something like "Axis ticks" in the same way that label orientation etc., can be selected for each side of the frame.</p> <p>Thank you very much for your work and your efforts.</p> <p>Jorge Tornero</p>
