Crashes QGIS or corrupts data:		Copied to github as #: 10713
Description		
Graticule creator plugin crashes in Windows although the shape with graticule seems to be created properly. In Linux it works perfectly. Tested with version 0.8.0 and 0.8.1p1.

Ouuups, sorry I didn't noticed that there is already P2 available so I tested one more and find out taht in P2 graticule creator works without crash.

Thanks

Lubos
