

QGIS Application - Feature request #6559

The Icons for the QGIS Browser & Application need to be different.

Pull Request or Patch supplied:	No	Resolution:	duplicate
Easy fix?:	No	Copied to github as #:	15759
<b>Description</b>  In Windows, the shortcut to the Quantum GIS Desktop and Quantum GIS Browser appear in the Start Menu and look very similar. It is very difficult to recognize which is which while quickly scanning through the Start Menu.  Having different icons would greatly help from a User Experience perspective.
