

QGIS Application - Bug report #6623

Sorting of columns wrong

2012-11-05 03:16 AM - Paolo Cavallini

Status:	Rejected	
Priority:	Normal	
Assignee:		
Category:	Vectors	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 15807
Description		
Sorting the columns of attached file by clicking on the column heading results in a wrong order (seems ordered literally, even if the columns are REAL)		

History

#1 - 2012-11-05 03:37 AM - Jürgen Fischer

- Resolution set to invalid
- Status changed from Open to Rejected

Looks fine here:

0 < 4086.0474023819 < 2.0225321751152e+23

0 < 38.5476170036028 < 4.43537757700702e+23

Did you stretch the columns to see the exponents?

#2 - 2012-11-05 03:43 AM - Paolo Cavallini

Ouch, in this case it may be the plugin Zonal statistics that is wrong, as the base raster from which these fields were calculated is:

STATISTICS_MAXIMUM=82.267440795898

STATISTICS_MEAN=8.4222511972116

STATISTICS_MINIMUM=0

STATISTICS_STDDEV=9.8045928374936

I open another ticket on the plugin.

Sorry for the noise.
