| Operating System: | linux | Easy fix?: No |
| Pull Request or Patch supplied: | No | Resolution: fixed |
| Crashes QGIS or corrupts data: | No | Copied to github as #: 15811 |
| Description | | |
| <p>The plugin manager checkboxes don't render properly - the right border of the checkboxes is invisible.</p> <p>This happens in linux (ubuntu 12.04), using both cinnamon and mate desktops. I haven't tried yet under kde.</p> <p>Affected versions are 1.8 and latest master. Attaching a screenshot.</p> <p>Not sure if category should be GUI or Plugins, nor who to assign this to. Seems that the icons were added by wonder.</p> | | |

History

- Resolution set to fixed
- Status changed from Open to Closed

it must be fixed in the new manager with QStandardItem.

#2 - 2013-06-13 05:00 AM - Etienne Tournigny

yes it looks fine.
