

QGIS Application - Feature request #6667
save map tips status configuration

Description Hi, I just figured out that "Map tips" status is not saved anywhere, so that it is always disabled on startup. Saving previous status would help using it more, and that could help administrator to set it ON on default configurations for users.

Hello, bug triage...

this is fixed in QGIS 2.13 master (and probably in previous versions): the setting showTips is stored in the standard QGIS configuration.

I am closing this feature request...
