Easy fix?:	No		**Copied to github as #:**	15945

Description

There is (was) a popular python plugin that allows to save as zip files one or more layers available in a project.

It would be very useful to add this as core qgis feature, for example from the right mouse button dialog that shows when clicking on a layer in the TOC.

I agree, it would be very useful. I really misso the zip layers plugin.

#2 - 2014-06-20 09:59 AM - Giovanni Manghi

- Resolution set to wontfix

- Status changed from Open to Closed

maybe it would be easier to update and upgrade the zip layers plugin.
