QGIS Application - Feature request #6844
Forwarding of finished() to detect external process termination

2012-12-09 01:53 AM - Rafael Varela

Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	15980

Description

I think that it would be useful if QgsRunProcess::processExit() [1] forwards the finished() signal [2] sent by QProcess, so a plugin that runs an external process could detect when the process exits.

I'm assigning this request to "C++ Plugins", but don't forget the Python Bindings.
