

QGIS Application - Bug report #686

Attribute window disappears off top of screen and can't get it back

2007-03-27 04:38 AM - anonymous -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Vectors	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: duplicate
Crashes QGIS or corrupts data:		Copied to github as #: 10745
Description		
<p>When using the vector editing tools, after a right-click the edit attribute window appears. It was working fine - but kept on creeping up the main window after each right click. Eventually it disappeared off the top of the window and now I cannot get it back. This means that I cannot now use the vector editing tools - as I cannot enter any attributes in.</p>
