QGIS Application - Feature request #6860
AddGPX icon is used for both GPS tools and Create New GPX layer

2012-12-11 05:30 PM - ramon .

Status:	Closed			
Priority:	Normal			
Assignee:

Pull Request or Patch supplied:	No		**Resolution:**	fixed
Easy fix?:	No		**Copied to github as #:**	15994

Description

(to me) The icon for Create New GPX layer is inconsistent with the remainder of the other add and new function icons. The current icon has a + in the corner, which if used like the other icons indicates adding an existing icon. It probably ought have a star.

Using the existing icon for the GPS Tool plugin is entirely consistent as this allows the addition of an existing tool.

I've attached an example icon, which might be useful. I've just done the cut and paste thing so it may need tidying up.
