QGIS Application - Bug report #6942
Legend title bounding box cutting off letters

2013-01-03 01:58 PM - Benedict Holland

Description

Create any map and put in a legend in the composer. The default word "Legend" is getting cut off at the g, I assume due to a bounding box calculation error. Changing size of the text does not fix the problem. I am marking this a blocker because legend titles should be fully functional with any release and should depend on only a selection of letters being used.

Merge pull request #374 from bholland/master

Fix #6942

History

#1 - 2013-01-03 02:00 PM - Benedict Holland

Version updated to latest daily build on 1/3/2012 but pictures generated before has the same problem. Also of course the last sentence should be not depend on only a selection of letters being used like g and j.
