QGIS Application - Feature request #6953
Marker line interval in map units

2013-01-06 08:24 PM - Nathan Woodrow

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Symbology			
Pull Request or Patch supplied:	No		**Resolution:**	fixed
Easy fix?:	No		**Copied to github as #:**	16063

Description

I think it would be handy in the cases like showing distance markers along a line that the marker line has the ability to render markers at a interval with the distance being in map units.

This would allow you to render a point every 10m for example without creating a new static point layer.

History

#1 - 2013-05-10 08:52 PM - Nathan Woodrow

- Resolution set to fixed

- Status changed from Open to Closed

Added in commit:460a471.

#2 - 2016-06-28 10:17 PM - Dan Jacobson

Too bad there is no commit reference in this bug system so we can see what files are involved, and somehow figure out what part of Qgis you fellows are talking about above in order to try it out.
