

QGIS Application - Feature request #6954

In Print Composer / Map item / Grid tab add option "Tick" to Grid Type

Description		
There are two options (Solid and Cross) which is great. But it would be nice to have third option "Tick" which would do only ticks on frame border. Basically the Cross option just without crosses in the map.

Revision 53fa30f1 - 2014-09-03 12:04 PM - Nyall Dawson

[FEATURE][composer] Add tick styles for frames. Options include drawing ticks only inside the map frame, drawing ticks outside the frame, or drawing ticks both inside and outside the frame.

Yes, please :)

Few suggestions:

- the tick should be offered in two flavors: inner tick and outer tick
- the tick length should be customizable (like the cross size)

The tick style would be very useful when used alongside the newly committed multiple grids feature.
