

## QGIS Application - Bug report #6993

### Saving MS SQL Layer to shapefile fails with dates/datetime

2013-01-14 02:43 PM - Nathan Woodrow

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	Tamas Szekeres	
<b>Category:</b>	Data Provider/MSSQL	
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> fixed/implemented
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 16097
<b>Description</b>		
<p>If you try and save a MS SQL layer with date or datetime column types you get an error while saving</p> <p>Export to vector file failed.</p> <p>Error: Feature write errors:</p> <p>Invalid variant type for field DateInstalled[8]: received QDateTime with type 1945-01-01T00:00:00</p> <p>Invalid variant type for field DateInstalled[8]: received QDateTime with type 1945-01-01T00:00:00</p> <p>...</p> <p>Saving a PostGIS/Spatialite layer with dates or datetime doesn't have this issue.</p>		

#### History

##### #1 - 2013-02-28 12:26 AM - Tamas Szekeres

Could you check whether the recent fix for #7249 could also solve this problem? I've tried with date type and it appears to be ok.

##### #2 - 2014-06-01 08:15 PM - Nathan Woodrow

- Resolution set to fixed/implemented

##### #3 - 2016-01-26 04:37 PM - Nyal Dawson

- Status changed from Open to Closed
