

QGIS Application - Bug report #7031

divide (split) polygon doesn't work

2013-01-23 01:29 AM - Andrea Spisni

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Affected QGIS version:	1.8.0	Regression?: No
Operating System:	Fedora	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #: 16121
Description I'm trying to use the divide (Split) command vector (in Data management) in a Fedora 16 with QGIS 1.8 and I noticed that after selecting the folder, the program freezes and I have to kill it. When I restart qgis, it deleted all the customizations: reference systems used recently, enabled plugins , transformation tool settings.
