

QGIS Application - Feature request #7091
implement (non-blur) label drop shadow effect

2013-02-03 07:57 PM - Mathieu Pellerin - nIRV

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Pull Request or Patch supplied:	Resolution:	fixed
Easy fix?:	No	Copied to github as #: 16173
Description		
<p>Would be nice for the new labelling engine to offer a drop shadow style for labels. Blurring needn't be part of this feature.</p> <p>It'd offer settings such as: x & y displacement (in mm value only), color, and alpha.</p> <p>Drop shadow can be a nice stylish alternative to buffer in increasing readability.</p>		

History

#1 - 2013-04-17 07:01 PM - Mathieu Pellerin - nIRV

- Resolution set to fixed
- % Done changed from 0 to 100
- Status changed from Open to Closed

Implemented as of commit:8749b29936, closing.
